Solar Power on the go!

Solar Power to the People

Our Company

Azimuth Solar Products Inc. is based in Kelowna. We specialize in portable solar generators to power off-grid tiny homes, cabins, RVs, and mobile work sites. We also provide powerful new battery technology that supports people's ability to bring solar power & off-grid living into their world.

Azimuth Solar Products Inc. is a socially responsible company working with GlobalMedic to help with disaster response across the world.
